

475-GAGNU

4 May 1951

SUBJECT: BOYDND Operational Plans and Schedules  
for remainder 1951.

TO: Chief, BOYDND  
Washington, D.C.

Attn: [ ]

REP: WASH 35543

DECLASSIFIED AND RELEASED BY  
CENTRAL INTELLIGENCE AGENCY  
SOURCES/METHODS/EXEMPTION 3B2B  
NAZI WAR CRIMES DISCLOSURE ACT  
DATE 2007

1. It had been planned to put the first four metacola equipped teams into Spiderland during the May moon period. This has not been possible due to:

a. The training site JBLomer not available to us until the 2nd of May when the Dremers completed their training there.

b. Some unaccountable delay in JBLomer in selecting the list of trainees from NDFerson. All this had been gone into thoroughly by [ ] when at the training site early in April and a list of our requirements, dates, and areas of operation was fully explained to the DDFland staff. If no action is forthcoming [ ] intends to go to JBLomer to attempt to get the training under way at once and to discover why everything has come to a standstill after [ ] departure.

2. The resupply team has been standing by since the first attempted mission on the night of April 22/23rd for a break in the weather. They will be dispatched without waiting for the May moon period as the nature of the Spiderland weather this time of year makes it essential we take advantage of any possible weather break.

3. In WASH 35543, Para. 1, plans were requested for the establishment of a minimum of six teams in Spiderland this spring. Due to metacola being the only means of communication available, [ ] does not recommend more than four spring teams which will be located in D.I. Areas 1,2,4, and 5, from north to south as shown in the accompanying overlay. Metacola operations have too many limitations and it has been the writer's wartime experience that an operational team without proper communications is useless. In the event metacola communications are successful and reception committees can be laid on, two additional teams can be sent in during July or

August but it would be preferable to have them wait until they could be supplied with W/T. Also, any kind of regular Commo. schedules to service six T-7 Spider Motorola teams together with the Dreamer Motorola teams could not be serviced by the present planes and crews.

4. Plans are under way to recruit and train the special mission team here in LORINK but no further steps will be taken until ERMetel advises us whether this mission is still desirable in view of REU [ ] 5308. It is scheduled for Area 3 on overlay.

5. June

a. Four Motorola equipped teams will be dropped on D.Z.'s Nos. 1, 2, 4 and 5 as marked in rednumbers on the enclosed overlay. This operation will be for the June moon period. These areas were carefully picked to insure Motorola contact, afford the maximum security and offer suitable dropping terrain. For Commo. contact the teams will operate on top and on the western slopes of the first mountain ranges just inland of the coastal plain area.

b. Commo. planes operating along Spiderland coast to maintain Motorola contact with teams.

c. Special mission team to begin training.

d. Leaflet operations to continue if authorized by ERMetel.

e. Leaflet drop, when authorized, announcing ERMyrmal going on air.

f. ERMyrmal to go on air end of May or beginning of June.

g. Supply drop scheduled for resupply team assuming they will by this time be in Spiderland.

h. W/T operators continue in training.

6. July

a. Remaining six teams of three men each to enter training. These teams are scheduled for D.Z. Areas Nos. 3, 6, 7, 8, 9, 10 or 11 on enclosed overlay. Each team will be supplemented with a W/T operator, thus making their composition the normal four-man DGPland operational team.

-3-

- b. Dispatch of special mission team.
- c. W/T operators continue training.
- d. Supply drop scheduled for resupply team at pre-arranged spot during moon period and resupply metorela teams.
- e. Commo. plane operating along TPSpider coast.
- f. Leaflet drop if authorized.

7. August

- a. Continuous training of teams and W/T operators JMKMOMER.
- b. In event metorela contacts are working satisfactorily will dispatch one or two metorela teams to join reception committee.
- c. Resupply metorela teams if Commo. contact working.
- d. Prearranged supply drop for resupply team dispatched to ERShower area.
- e. Commo. plane sorties along Spiderland coast.

8. September

- a. Six teams with W/T's sent to LCBlink and dispatched to D.Z. areas Nos. 3,6,7,8,9,10 or 11 as shown on overlay. Dispatch to be during September moon period.

- b. Commo. plane TPSpider coast sorties.
- c. Resupply ERShower area and metorela teams if and when contacted.

<sup>d. Leaflet drop;</sup> and one W/T operator to each metorela team if possible.

9. The accompanying overlay was worked up in coordination with Jargen's future operational plans. Friendly areas and D.Z.'s, as shown, are based on intelligence as supplied by McNeigh, Jargen, Kaempfer and Urridge and Spider candidates.
